

Refrigerant gas

Easy to carry

Incorporates wheels

Fill level indicator

Protection against overflow of water

Anti-ice function

Continuous external drain plug

Self-diagnostic

Removable water tank

Auto-restart function

Low sound pressure level (dB)*according to model

Great dehumidifying production capacity

## Fill Level Indicator

The filling level of the reservoir is displayed.

## Anti-ice function

When the unit goes into defrost mode, it absorbs energy through a hot gas tube, so it doesn't affect the water temperature.

## Auto-restart

The unit is able to remember all the original settings that were set before the power failure and automatically returns to those settings when the power is restored.

## Self-diagnosis

Once abnormal operation or parts failure happen, the unit will shut off automatically to protect the system. Meanwhile it will indicate protection or error code for fast service.

## Compact design

The unit is designed with smaller dimension, which is easy to install and transport, and saves the cost.

## Visualization of the humidity in real time

## Protection against overflow of water

The function allows that when the tank is full, the device stops automatically to avoid the overflow.
